The Rompa® Snoezelen® SurfPro™ is a highly portable, interactive floor projection system that animates surfaces. It creates an inclusive environment for people of all ages and abilities.

This system displays motion-responsive games and activities on floors or tables, offering a wide variety of stimulating content suitable for multi-sensory exploration, play, learning, therapy, and relaxation. Its natural user interface removes many barriers people face when interacting in mixed-ability groups, offering a universally accessible interaction platform that enables everyone to participate equally and helps create an inclusive environment.

The mobile system is designed for floor and table use, is height adjustable, projects onto different-sized tables, and moves easily between rooms. With the touch of a button, it creates an interactive surface ready for people of all ages and abilities to enjoy. Additionally, the system comes pre-loaded with the Sensory Suite, which includes 300 activities and games with audiovisual effects designed to stimulate, engage, and relax.
