Dundee Partnership **Community Regeneration Fund**

Grant Application **2026/27**

Applicant Information	
Name of Applicant Group	Allan Howieson -Dundee City Council CLD Youth Worker and Group of local young people from the Central area of Dundee.
Activity Title	The DISC Target Project
Grant Requested (£)	£20,763.08 (£10,381.54 each from Maryfield and Coldside Forums if both forums agreed to funding 50% of project costs)

- The Youth Inclusion Fund is to provide financial assistance for community initiatives aimed at working with Children and Young People. Applications should be for an activity (or activities) focused on including children & young people in activities, diverting young people from an existing undesirable activity or preventing them joining in with such activity. This should reflect a need that children and young people have been consulted on.

- The Small Grants Fund is for other applications that contribute towards achievement of the Dundee City Plan / Local Community Plan, usually up to £5,000, but there may be lower local restrictions on the amount. Therefore, it is important to check with the relevant Community Worker as listed on page 8 for any local restrictions or other requirements.

This application should address needs in one of the below Wards within which the Dundee Partnership supports activity. If an activity covers more than one Ward then an application is required for each Forum, but it is essential that each application can stand on its own if agreed and that the application is not for a city-wide activity, but a local activity that is to take place in more than one Ward.

Checklist for the DP Community Regeneration Fund Application Form

Before submitting your application form to the Dundee Partnership Team, please use the below checklist to ensure that your form is as fully completed as possible. Please also note that submitting an incomplete form can cause delays in processing or rejection of your application.

Have you:

Read the guidance sections of the form

☐

Fully completed the information on the front of the form

☐

Provided a response to all sections of the application form
(including indicating a section as 'N/A' where relevant)

☐

Checked that your budget adds up properly?

☐

Checked that your start date is after the date at which funds could be available,
(see page 6) and that your end date is within the financial year?

☐

Included appropriate, measurable outputs & outcomes?

☐

Provided your groups accounts, or other appropriate financial information?

☐

Sourced and attached all relevant quotes?

☐

(multiple quotes are required where >£5,000 is being applied for to ensure value
for money is being considered)

Checked that the bank details or financial code are correct / complete?

☐

Signed the form, given accurate contact details and ticked the GDPR box?

☐

Who is the grant for? (Name of Applicant Group / Department)		Allan Howieson , CLD Youth Work , Neighbourhood Services Dept, DCC.	
Did you receive a Dundee Partnership grant during 2025-26? (If yes, list all grants below)			YES / NO
Title of project funded	Amount granted	When	Was it fully spent?
The DISC Target Project	£ 9858	April 2025	YES

Please give a description of what you want this grant for - (please limit your answer to 500 words or less)

QUICK SUMMARY OF WHAT THE CLD DISC TARGET PROJECT WILL DELIVER EVERY WEEK WITH CRF FUNDING:

We will deliver 2 x nights per week (50 weeks) of Free, Healthy outdoor Youth Diversion Activities run by local young people from the local area. (100 sessions) It will attract around 250 local young people through its door each week. Around 170 Young people will play football delivered by our own local our young people, and around 70 other youngsters who don't play football will be supported and provided with warm clothing, blankets, warm drinks and snacks and warm shelter if they require 1:1 support.

The project will be open to all, but we will specifically target young people most vulnerable or in need of Diversion. This includes isolated groups, young people in care, young carers, young people known to Social Work and police or school non-attenders and of course young people experiencing child poverty

Around 70% of the 250 local young people attending each week will come from the local SIMD areas and are likely to be affected by child poverty. This is why we need your help and funding help to provide warm clothing, blankets, hot water bottles, hot and cold snacks and drinks, on top of free activities. We already have funding to provide free football boots and warm tops and gloves to every child or young person who cannot afford or access them. A new development we have introduced with other funding secured elsewhere ,is that We will also now provide free

haircuts to young people at our sessions who we believe do not have the resources to pay for haircuts and trims as other families can. These are all direct responses to the need to limit the effects of child poverty of local children and families in SIMD areas.

WE will also run one night per week of a Volunteer Training Academy session (after school) – DCC Youth Workers will train a group of young community volunteers to gain the skills, motivation, and confidence to shape and deliver their own community project for the benefit of both them and the community. Young people trained will all be local young people from this ward and will usually be from challenging social or economic backgrounds.

In addition, 1:1 support meeting with young people will take place every week out with the project to respond to young people who are most vulnerable or find themselves in distress or crisis.

Here is the key point- All sessions will be run by local young people from the local community. These young people know this community, they understand the issues we have and they know the families who most need support – We think local people are local experts and are key to this project's success. With your funding we will employ 20 of these local young people (all from the local area) throughout the year as a progression from Volunteering and the free training above. They will come from a variety of challenging backgrounds such as local Children's homes (looked after), histories of mental ill health, young carer responsibilities, low attainment or attendance at school, parents affected by Alcohol or drug addiction, financial poverty or Refugee background. This gives them unique empathy and understanding of issues affecting younger kids, which is key. The employment of these Young People will not only encourage positive active role modelling and peer leadership process in their local community but will act as a hugely important first experience of formal employment for young people preventing youth unemployment. Our strong evidence says that almost all these young people you fund do not fall through the gaps and will achieve a positive transition into College, Apprenticeships or full time Employment.

As a local youth worker of 28 years, not enough Community projects nationally are genuinely entrusted to local adults to run Youth Work initiatives like the DISC Target Project. In my experience, very few communities or projects trust or value young people enough to run their own community projects. Instead, too often this role is left to adults / workers etc. It is my opinion, adults (and often local professionals like me) do not have the same passion or buy in as local young residents, CRF members in Maryfield and Coldside have gone a huge step further in recent years and have invested in young volunteers and allowed some of their work to be formally paid. This shows our Young People that we value and trust their contributions and we trust our own.

I suggest that your faith in this process is paying off. The evidence really speaks for itself:

The fact that this project is now in its 23rd year and continues to attract increasingly young people (150 young people per night) is a good indicator that young people can make a success of running their own project. The fact that young people attending feel safer is also relevant.

Young people also feel more connected to their local community and would like to stay and work here in the future which is an added outcome that should not be underestimated.

The evidence that every young person you/we have employed with CRF Money has gone on to positive employment destination after working at the project is another indicator your money is being well spent. Preventing unemployment not only saves money Longterm but has a hugely empowering effect on the young people you employ now and long after they have left.

Not to be ignored, is the evidence from local Police that there continues to be comparatively low levels youth related crime or anti-social behaviour in our local Coldside and Maryfield wards.

It is almost certainly because local young people run the project themselves Funding our young people to do the work...works! We hope you agree .

Which City Plan / Local Community Plan Outcome(s) will it address?

DUNDEE CITY PLAN OUTCOMES:

City Plan 2022-2032

Increase the % of 16-19 yr. olds from SIMD1 and care experienced school leavers in Education, Employment or Training.

1. Support closing the gap in positive destinations for 16-19-year-olds
2. Improve ongoing participation for care experienced young people and those from SIMD 1 areas
3. Physical activity in local communities

(BY EMPLOYING 16-19-year-olds / b targeting these groups of young people for participation / by providing 4 hours free physical exercise each week, this Project contributes to these City Outcomes)

Young People's Guarantee (sits within the Dundee Plan)

Themes

1. Prepare young people for the world of work
2. Help all young people achieve their potential
3. Invest in a skilled workforce
4. Create Jobs, Volunteering and Training opportunities

(Our project provides contributions by creating jobs for young people, creating volunteering opportunities and helping young people create clear achievable positive destinations in the future)

Dundee CLD plan (sits within Dundee Plan)

Improving Outcomes for Young People

Youth Work plays a key role in delivering the principles outlined in the UN Convention on the Rights of the Child, particularly Article 12. Our Youth Work partners will ensure that our youth work offer enhances the social, emotional and physical wellbeing of young people, targeting our resources at the most disadvantaged. Youth Work supports young people to make positive changes within their lives and in their communities through learning

The key purpose of community learning & development is empowering

In this case young people, individually or collectively, to make positive changes in their lives and in their communities through learning. By working in partnership with young people we know we are creating a learning process which contributes to improving their life chances, through learning, personal development, and active citizenship. We are building stronger, more resilient and inclusive

communities. Our Ambitions for Improving the Life Chances of Young People in Scotland – National Youth Work Strategy.

Council Plan Key Priorities -

” We live in communities that are inclusive, empowered, resilient and safe “

“Reduce Child Poverty, inequalities in incomes, education and in health”

(The Disc Target Project clearly reflects these aspirations and processes, from our specifically Targeting the most vulnerable young people, promoting learning to supporting young people to be active citizens and developing people skills for work via volunteering and employment)

MARYFIELD AND COLDSIDE COMMUNITY PLANS:

“We need to respond to the cost-of-living crisis “

“We need to improve the life chances for children and families”

“We need to improve the life chances of Children and families”

(The DISC Target Project s proposal to provide free food, warm clothing and environment, free services together with its commitment to improving the employability chances of its volunteers show a direct contribution to meeting these LCP outcomes)

How many people will benefit from this project?	800-1000
Will any specific groups benefit from this project? (male, female, age range or protected characteristic) The Project is open to all local young people aged 11-21 , but will specifically target a variety of vulnerable groups using a partnership approach. Groups include: Young People / families living in local areas of deprivation or experiencing poverty. Young people living within the Care system Young Carers Young people known to the police and/or Social Work Dept. Young people who do not attend school regularly or will find transition to secondary school hard. Young people at risk of crime exploitation Young adults 16-21 who are not in employment or training. Young people with physical limitations or mental health conditions. Young people who are isolated and find making friends challenging. Young people from diverse cultural backgrounds (eg travelling /asylum seekers)	

Please say why the project is needed (please limit your answer to 500 words or less)

RESPONDS DIRECTLY TO REDUCING THE AFFECTS OF CHILD POVERTY -WE Will will not only provide free healthy safe services to young people 2 evening per week, but we will provide additional food to all participants every session, provide warm clothing/hot water bottles/blankets etc / and free trainers and football boots to those who cannot access these due to financial barriers.

REDUCES YOUTH UNEMPLOYMENT- We Provide crucial initial Employment to 20 local underachieving Young People, which evidence suggests, drastically improves their Employability chances in the future

HELPS CLOSE THE ATTAINEMENT Gap –Young people from Poverty affected local areas will gain qualifications , experience of employment and support to progress into College , training or Employment outwith the project

IMPROVES PHYSICAL, MENTAL EMOTIONAL HEALTH FOR CHILDREN AND YOUNG PEOPLE- we provide not only 2-4 hours of free physical exercise to local young people but provide key and professional interventions when Young People experience issues which effect their emotional and mental wellbeing.

INCREASES SAFETY AND PROTECTION OF OUR LOCAL YOUNG PEOPLE –we provide a safe and healthy diversion to 160 young people every week, and address negative decision making through 1:1 Support)

REDUCES OBESITY- we provide 2-4 hours of free physical exercise to around 160 YP every week,

REDUCES LEVELS OF ANTI SOCIAL BEHAVIOUR –We actively Target and support Young People identified as being involved in negative decision making in their local community and offer either direct alternatives through activities, volunteering, or Training. Feedback says this is working locally but must continue without complacency.

PROMOTES COMMUNITY EMPOWERMENT OF LOCAL PEOPLE. -The project is run, influenced, shaped and delivered by local Maryfield Young People. This can be hugely empowering process for our Young People, the process of Volunteering and gaining Employment further Empowers Young people)

LOCAL COMMUNITY PLANNING AND PLACE PLAN PRIORITIES ADDRESSED:

MORE JOBS AVAILABLE- We Provide crucial initial Employment to 20 local underachieving Young People which has proven to drastically improve further Employability chanced
CLOSE ATTAINEMENT Gap in the future.

MORE YOUTH AND CHILDRENS GROUPS PROVIDED- we provide 4 days of quality large scale services for local young people aged 9-19

DIRECT ACTION TO HELP PEOPLE FEEL SAFER AT NIGHT- Our outcome monitoring and evaluation suggests that Young People feel much safer in a structured environment in the evenings. We think that a reduction of youths congregating together in local hot spots also can reduce anxiety or the perception of crime of adult or elderly residents.

BETTER OPPORTUNITY FOR PEOPLE TO VOICE THEIR CONCERNS –constant contact and individual support to young people provided by this project gives staff the opportunity to both understand and address individuals concerns every week.

What local consultation has taken place regarding this application?

(Please attach evidence summarising the results of any consultation)

Over 250 Young People per week currently attend this provision and see this project as being an important part of their lives providing Diversion, free Healthy activities, clothing and support.

In Addition, this year 20 local young people have used this project and the funding provided by Coldside and Maryfield forums to progress into college, apprenticeships, uni or Employment. They clearly express the need for this project to continue.

Parents, local people and police all report the projects positive impact on community life and have concerns what the impact of not funding the project may have on the local community.

IN the bigger context, Child poverty statistics are increasing having a devastating effect on local families increasing inequalities in health, education and youth disengagement. We need interventions which alleviate these effects .

There are very few who would argue that we do not need to provide a safety net for our young people in relation to fuel poverty, food poverty, and for the need to provide free services which support our most vulnerable community members.

Our proposal to continue our free Healthy Diversionary services at night to young people two night per week, with the added provision of food, warm clothing and 1:1 support space is our response.

Many professionals, social analysts and parents continue to be concerned about the true long terms of the pandemic on our kids and young people. What we do know locally from our work with young people, is that Social Isolation, Unemployment threat, reduced further Education opportunities, bereavement, mental and physical deterioration, and substance misuse are having a devastating effect on our local Maryfield and Coldside young people NOW.

What evidence do you hold that the local community supports this application?

(For example, was it proposed by members of a particular group? Does it directly address need identified by community members?)

What evidence do you hold that the local community supports this application?

(For example, was it proposed by members of a particular group? Does it directly address need identified by community members?)

Over 250 Young People per week currently attend this provision and report this project as being an important part of their lives, providing Diversion at nights , free Healthy activities, clothing and support that they could not afford if it was not subsidised by CRF money .

Recent Local Consultation of 700 young people in high schools and adults in the community voted that Diversion of young people in the evenings providing free shelter , food , clothing and support is a priority .

In Addition, this year 2025/2026, 20 local young people have used this project and the CRF funding provided by Coldside and Maryfield forums to progress into college, apprenticeships, uni or Employment. Over the years this project has funded employment for over 100 young people resulting in long term progression into career choices. This clearly demonstrates the need for this project to continue to continue to address youth unemployment.

It is widely acknowledged that youth crime in both maryfield and coldside is far less prevalent than many years before our DISC Project was developed. Although this is due to a variety of factors, police believe that this is at least in part due to youth engagement in the evenings that our Project provides.

Parents, local people and local police have all reported in different ways on the projects positive impact on community life and have expressed concerns what the impact of not funding the project may have on the local community.

Local Community plan priorities identified by local people talk about the need for responses to cost of poverty creating activities that promote improved life chances of children and families and targeting SIMD areas. The DISC Target Project can do this with CRF local funding .

How will the project / activity tackle deprivation or benefit those experiencing deprivation? (Refer to Section 1 of the Guidance Notes)

This is a free activity provided for all young people in their local community in a high standard venue, which may be unaffordable to many without this subsidy. It is open for any young people to attend, but we will specifically target vulnerable groups and target residents of areas within Maryfield SIMD Areas. This grant will also assist in employing local young people we are also tackling unemployment in a SIMD area of the city. Over 70 % of our participants last year came from the top 15% SIMD areas locally.

The DISC Target Project is named appropriately. The ethos of the project is to “target” young people who are most vulnerable. This is done by CLD Youth Workers liaising closely with key partners to ensure it meets these outcomes i.e. young people who attend include looked after young people, young people who are known to social work, young people who live in SIMD areas within Maryfield, young people from BME community, young people who congregate in Maryfield and Coldside CRF hotspots areas in the evening and young women’s’ groups for whom there are concerns.

All sessions will not just provide free activities , but essential basic food provision, Free boots , warm clothing , an indoor shelter area and now , free haircuts,

All these Groups targeted are statistically more likely to suffer from deprivation and Poverty and Health Inequalities.

The additional action of Involving and employing Looked after YP will strengthen our processes for Targeting YP negatively affected by poverty and exclusion.

What other sources of funding have you secured / tried to secure for this project?

- **If none, please state why this is the case**

(Detail below, including applications that are pending or that have been turned down. We may ask for further evidence of an application for other funding)

What other sources of funding have you secured / tried to secure for this project?

- **If none, please state why this is the case**

WE have received £16,000 worth of capital funding from the Neighbourhood Capital fund to build a large covered seated area at pitch side to provide additional shelter and warmth for young people who attend. It will also give us a space to provide food in winter months.

We have also received £1500 from a WMTY fund to provide barbering equipment so we can free haircuts to young people who can't afford regular trims like other young people

There are also various and significant in-kind contributions to the total cost of running this project. Dundee United Community Trust, DCC CLD Youth work provide significant financial and significant Staffing contributions. WE have recently received money from the Dundee Youth Fund which pays for things such as a storage container, volunteer costs not included in this bid. WE have also applied for money from the young Scot fund for free football boots and clothing for young people at the project who need it.

The crucial main element of the project that we need funding for and is almost impossible to find elsewhere is for the funding to employ a team of local young people to run the service. We believe the skills they have and the outcomes they produce cannot be they cannot be replaced and funding for which is very difficult to find. WE believe that local adults funding local young people is a crucial element of the project as it signifies young and adult community members working in partnership to improve both their local communities and address poverty together It is what is unique about this project. This is why we ask for local support via our local CRF groups.

Source of Funding (detail if this funding is for more than 1 year, if applicable)	£
Neighbourhood Capital fund (2025)	£16,000
WMTY Funding (2025)	£1500

What are the costs of your activity and how much money is required? Please give specific details (expand list / use an additional sheet if required) and provide all quotes (good

practice for applications for over £5,000 is to provide three quotes to ensure value for money is received, and we will require to see these where relevant).

Cost Heading	Full Costs (£)	DP Aid (£)
DISC Let costs 50 weeks per year – 100 sessions x £60 per session (PAID FOR BY DCC YOUTH WORK SECTIONS LOCAL BUDGET)	£6000	£0
DCC CLD Youth Worker (Approx. 12-13 hours per week (from 37 Hour Week) as a percentage of Annual salary) . BREAKDOWN: 50 x Thursday night sessions –7 local young people paid x 2 hours x £13.51 per hour = £9,457 50 x Friday Nights sessions - 7 local Young People paid x 2 Hours x £13.51 = £ 9,457 An Additional 6 local young people Employed throughout the year will be given employment opportunities to deliver this vital service.	£18,914	£18,914
Totals	£51,268,80	£20,763,08

- **All applicants are required to submit a copy of the group's most recent annual accounts** with this application. These will be used to help determine eligibility for funding, and **WITHOUT THEM AN APPLICATION WILL NOT PROCEED**
- **If reserves held are less than three months operating expenses please confirm this below**

Note that if you have already submitted your accounts within this financial year, further copies may not be needed - please check with the Dundee Partnership Team if unsure

What other documents are you attaching to evidence the budget costs for this application? (e.g. quotes, estimates, projected income and expenditure)

Direct Soccer Quotes: footballs and Bibs

Amazon Market place Quotes – protective Umbrellas

Asda Quotes – Food provision/Snacks for all year round basic food provision .

How do you intend to monitor the project Outputs and Outcomes?

We have robust and resilient systems to record, evaluate and present all outcomes projects Outputs and Outcomes using Dundee City Councils Cognisoft data management system.

This will measure numbers attending, can measure SIMD statistics and report on key outcomes as learning, Skill development, Employment outcomes, or how it engages with people from targeted vulnerable groups. Feedback from communities, local police and parents provides additional evidence if impact on community.

What is the planned start date of the event/activity?

Please note turn around on applications is 6 - 10 weeks and funding cannot be retrospective (*see section 2 of the guidance notes*)

1st April 2026

What is the planned end date of the event/activity?

31st March 2027

Outputs & Outcomes

It is expected that applicants will have evidence to support performance information when completing returns on the performance against target. Consideration of this should be given when outputs and outcomes are set out.

Applicants will usually refer to one [City Plan](#) / [Local Community Plan](#) Outcome, but the opportunity is given for up to two, if required. **Please refer to section 3 of the Guidance Notes** for examples of outputs and outcomes / indicators.

City Plan / Local Community Plan Outcome:

CITY PLAN OUTCOME ref – “Reduce Child Poverty & Inequalities In income,education and Health”

MARYFIELD LCP OUTCOME ref – “We need to respond to the cost of living crisis”

“We need to Improve the life chances of Children & families”

Purpose of activity / project within this Outcome:
