

## Dundee Partnership Community Regeneration Fund

### Grant Application 2024/25

Applicant Information	
<b>Name of Applicant Group</b>	Leisure and Culture Dundee – Leisure and Sport
<b>Activity Title</b>	Freekickz – Diversionary Football
<b>Grant Requested (£)</b>	£3,601.50

- The Physical & Environmental Improvement Fund is to provide financial assistance for community initiatives aimed at improving the local area through Capital expenditure. Capital expenditure is something of a physical nature including the acquisition, improvement or structural enhancement of an asset valued at £6,000 or more.

- The Youth Inclusion Fund is to provide financial assistance for community initiatives aimed at working with Children and Young People. Applications should be for an activity (or activities) focused on including children & young people in activities, diverting young people from an existing undesirable activity or preventing them joining in with such activity. This should reflect a need that children and young people have been consulted on.

- The Small Grants Fund is for other applications that contribute towards achievement of the Dundee City Plan / Local Community Plan, usually up to £5,000, but there may be lower local restrictions on the amount. Therefore, it is important to check with the relevant Community Worker as listed on page 8 for any local restrictions or other requirements.

This application should address needs in one of the below Wards within which the Dundee Partnership supports activity. If an activity covers more than one Ward then an application is required for each Forum, but it is essential that each application can stand on its own if agreed and that the application is not for a city-wide activity, but a local activity that is to take place in more than one Ward.

(If yes, list all grants below)

**YES / NO**

Title of project funded	Amount granted	When	Was it fully spent?
Freekickz – Diversionary Football	£3,602	Apr 2023	Yes

**Please give a description of what you want this grant for -** (please limit your answer to 500 words or less)

Freekickz Diversionary Football programme is focused on improving the lifestyle of its young participants (12-18yrs). Our sessions offer a safe environment for targeted young people to attend free regular activity within their community, keeping them off the streets and encouraging responsible behaviour, which should contribute to the development of stronger and safer communities.

Partnerships have been developed by the Leisure and Culture Football Development team, Dundee City Council Youth team and local community football clubs and hubs. The allows our staff, supported by CLD youth workers, to develop relationships with those young people and support their own individual pathways either in education, workplace or into community sport clubs.

We have a person-centred approach and work hard to identify the needs of each individual that attends our organised provision. Therefore, we can tailor the programme to offer additional sessions / workshops around skill development, further education / career support, alcohol, drugs and community safety.

Additionally, we can offer, our older participants, the opportunity to volunteer within their community through our programme and can implement a pathway to possible employment opportunities.

As this programme is designed to work with young people coming from disadvantaged backgrounds, we want to make sure that there is a pathway to lifelong participant in / through

Reduce levels of anti-social behaviour

Health & Wellbeing

Cost of Living

### How many people will benefit from this project?

60

Will any specific groups benefit from this project? (male, female, age range or protected characteristic)

Male and Females aged between 12 and 18 y/o

### Please say why the project is needed (please limit your answer to 500 words or less)

The Freekickz Diversionary Football programme will offer young people a safe environment to attend free regular activity within their local community. This allows our staff to develop relationships with these young people and support their own individual pathways either in education, their career or in sport.

There is strong evidence, nationally and internationally, that shows youth diversionary is a better way of addressing low-level criminal behaviour and create better outcomes for our young people by providing prevention, intervention and educational support.

Our Freekickz programme provides us with the opportunity to play an important role in developing resilience to youth offending and anti-social behaviour and building both understanding and relationships in a positive setting between young people and their community.

Other programmes that have been tried by other providers have not been successful as they have been short term and delivered in isolation. We believe that our wider partnership approach will allow us to get it right for each individual that attends our long term, needs based approach to supporting our young people in the community.

This also help us to complete a needs assessment of our young people, identifying what they want and giving our young people a voice.

Bringing Football Development, Youth Workers, school support staff together brings a wide range of skills and experiences to the programme that further enhances the delivery model. This approach also allows us to target local hot spots to divert them to the football activity on offer to them.

The programme will also develop an exit strategy for our young people providing pathways into clubs/hubs or local community youth work activities.

Furthermore, although this programme attracts mainly boys, girls are welcome to attend the provision, through the youth work team provision and support provided off pitch.
