Employee Owned
manufacturer

Who are we

Sutcliffe Play is the UK's first and only employee-owned playground equipment designer and manufacturer. We specialise in creating tailor made, bespoke, outdoor play space solutions to create successful play environments.

Our team is highly skilled in the design and build of quality play equipment and play spaces, and because we all own the company, every single one of us can lay claim to the title of Quality Control Officer.

Everybody you talk to in our business is an owner and a partner, with a vested interest in delivering total quality and meeting our customers' expectations to ensure our success.

We all own our business, we all care.

Our ethos

Through creativity, innovation and conviction, Sutcliffe Play contributes to the enjoyment and experience of children through play.

We design to encourage children to be creative, imaginative and to experience measured risk during their play, all of which form part of developing a child's physical and mental wellbeing.

But above all else when designing we focus on play for play's sake, an essential part of every childhood.

EMPLOYER RECOGNITION SCHEME

BRONZE AWARD
Proudly supporting those who serve.

Customer: Dundee City Council
Project name: Hilltown Park
Quote No: 5900124
Date: 20/06/2025
FAO: Rachel Higgins

Thank you for your enquiry relating to the proposed play project as detailed within your email dated 11th October 2019

On behalf of everyone at Sutcliffe Play I would like to thank you for giving us the opportunity to quote for the equipment supply and hope that you find the offer acceptable for your project.

Further information and equipment specifications are available online at
www.sutcliffeplay.co.uk

Please do not hesitate to contact us if you have any queries about this quotation

Best Regards

NB: Quotation is for budgetary purposes only

NB: Quotation subject to a full site survey being carried out

Despatch 8-10 weeks from receipt of order

Terms of Delivery:

Payment terms, 30 days from date of invoice upon completion of successful credit application alternatively, proforma payment prior to manufacture

Prices are held firm for a period of 90 days from date of quotation

Abbreviated terms and conditions of sale

1. Limits of Contract. No binding contract is created until the issue by Sutcliffe Play Ltd of its Order Acknowledgement and all prior correspondence or oral communications will be regarded as superseded.
 2. Value Added Tax. The prices listed do not contain V.A.T. This charge will be levied on all items, where applicable.
 3. Terms. All prices are subject to alteration or correction without notice and orders are accepted on the understanding that the price that will be charged is that quoted on acceptance of customers order. This does not affect fixed-price contracts. Payment is due within 30 days following the date of invoice. Prices do not include installation costs.
 4. £30 is our minimum order value. Carriage will also be charged on a minimum order.
 5. Cancelled Orders. Sutcliffe Play will be entitled to recover any costs incurred up to the time an order is cancelled.
 6. Storage. If delivery or collection of goods is delayed through any act or omission of the Customer, Sutcliffe Play may put the goods into storage at the Customer's risk and expense.
 7. Carriage - U.K. Mainland. 10% of goods value up to £2,500, 7.5% of goods value between £2501 and £5,000, 4% of goods value over £5,000. Other carriage charges on application. Deliveries before 10am incur an extra charge of £150. Carriage is calculated on the list price and subject to a minimum of £15
 8. LG (Lifting Gear). This is an additional cost of £150 to normal carriage charges and covers all types required but does not cover installation. Items with (LG) require more than a forklift truck for handling. Please discuss requirements when placing your order.
 9. Claims. Upon return of any defective goods to Sutcliffe Play Ltd by the customer, the provisions of Clause 9 shall apply. Notification of damage or shortage must be made in writing, to Sutcliffe Play Ltd and the Carriers within THREE DAYS of receipt of the goods. Goods delivered in a faulty condition must be returned within FOURTEEN DAYS of receipt by the customer.
Non-delivery of whole or part of the goods must be notified within SEVEN DAYS
 10. Availability. All goods offered are subject to availability.
 11. Catalogue Descriptions. Great care is taken to ensure that product descriptions are clear and accurate. However, due to our policy of continual product improvement, some products may vary slightly from those described, and we reserve the right to alter the design and range of our equipment without notice.
 12. Passing of Property. The goods remain the sole and absolute property of Sutcliffe Play Ltd until the invoice for such goods is settled in full.
 13. Sutcliffe Play Ltd undertakes to replace goods supplied in a faulty condition or which are lost in transit provided that the provisions of Clause 9 have been complied with by the customer.
 14. The Warranty set out in Clause 6 of the full conditions is offered in substitution for any other warranties or representations expressed or implied that may otherwise form part of this contract.
 15. Except for any liability which it may incur for death or personal injury resulting from negligence the Company shall not be liable in any manner whatsoever whether loss, damage or injury howsoever caused which may arise out of or in connection with the supply of goods to the customer.
 16. Nothing in these conditions shall affect the statutory rights of a customer who in relation to Sutcliffe Play deals as consumer as defined in Section 12 of the Unfair Contract Terms Act 1977, or any amendment or modification thereof.
 17. This contract shall be construed in accordance with English law and shall be subject to the jurisdiction of the English Courts.
 18. Other Conditions. In addition to the foregoing terms, all orders are accepted by the Company only upon the Company's current full Conditions of Sale. A copy of these can be supplied upon request.
- Licensed Credit Brokers: Sutcliffe Play Ltd are Licensed Credit Brokers under the Consumer Credit Act 1974.

SutcliffePlay

Sutcliffe Play equipment is covered as standard, by the guarantees below...

Lifetime Warranty

- Mild steel
- Stainless steel
- Aluminium
- HDPE
- HPL

15 Year Warranty

- Laminated wood
- Robinia wood
- Soft wood
- Galvanising

7 Year Warranty

- Painted items
- Anodising

5 Year Warranty

- Steel cored rope
- MUGA mesh
- Anti-slip surfacing
- Coloured wetpour
- Artificial carpet

3 Year Warranty

- Bearings & springs
- Vulcanised rubber
- Black wetpour
- Safety grass
- Rubber mulch

1 Year Warranty

- Installation
- Other moving parts

Sutcliffe Play Warranty

Across the play marketplace, our products are renowned for quality, durability, and sustainability.

As a UK manufacturer supplying local authorities across the country, Sutcliffe Play is fully aware that our equipment may be targeted for vandalism. As such, our equipment is designed to be as vandal-resistant, robust and maintenance-free as possible, even in challenging environments, ensuring its play value is retained throughout its life. To help achieve this longevity, when designing and manufacturing our equipment we only specify high-quality materials and use tried and tested construction methods.

Warranty periods

We offer market leading warranties with all of our equipment, offering peace of mind that our equipment will continue to perform as it was intended and as supplied when new.

Warranty exclusions

Vandalism, misuse, discolouration and failure as a result of poor maintenance or installation by others. All Sutcliffe Play equipment must be maintained in accordance with the Sutcliffe Play maintenance instructions.

Lifetime Warranty

Against structural failure due to material or production defects on Sutcliffe Play manufactured mild steel, stainless steel and aluminium components.

Against cracking, splitting and delamination of HDPE & HPL panels that are part of Sutcliffe Play manufactured products.

15 Year Warranty

Applicable to engineered softwood, hardwood and laminated components where structural integrity is compromised on playground equipment.

Where the galvanised finish is defective causing material failure on Sutcliffe Play products.

7 Year Warranty

Where the zinc-rich powder coated finish is defective causing material failure on Sutcliffe Play products.

Where the anodised finish is defective causing material failure on Sutcliffe Play products.

5 Year Warranty

Steel-cored rope, MUGA mesh & anti-slip deck, against structural failure due to material or production defects.

Coloured wet pour against faulty materials or inappropriate application. Does not include coloured wetpour inserts into black wetpour or joints between wetpour pads and any perimeter edging.

Artificial carpet against failure due to faulty materials or improper application.

3 Year Warranty

Bearings & springs, against structural failure due to faulty workmanship or materials.

Rubber, where used as a surface finish having been subjected to a vulcanising process, against failure due to faulty workmanship or materials.

Black wetpour, against faulty materials or inappropriate application. Does not include coloured wet pour inserts into black wetpour or joints between wetpour pads and any perimeter edging.

Rubber grass matting, against structural failure due to faulty materials.

Rubber mulch, against faulty materials or inappropriate application. Does not include joints or any perimeter edging. Does not include colour fastness.

1 Year Warranty

Installation, accordant with the product installation instructions used at the time of installation.

Against failure of other moving parts due to faulty workmanship or materials.

Sutcliffe Play Lifetime Philosophy

In addition to our standard warranty periods, any customer concern, regardless of the age of the product, is fully investigated, and free of charge components supplied in circumstances where it would be reasonable to expect a greater life from any given part. This philosophy requires equipment to have been adequately maintained by the customer, in order to avoid failure as a result of damage sustained outside normal wear and tear.

Manufacturing

The Play Factory!

The strength and quality of niche British manufacturing are qualities that we have been perfecting for over 150 years.

Within our purpose built facility in West Yorkshire our team of highly skilled designers, engineers and fabricators transform raw materials into finished goods used within play area projects throughout the UK and further afield. Our pride is no secret and the door is always open to visitors to view first-hand the processes involved with the manufacturing of our products.

As well as holding an annual Home Show, where guided tours of the facility are interspersed with play related seminars, we offer an open invite to all to drop by and see us.

With a local, British manufacturer, comes real benefits.

- Lead times are shorter and with our own flexible team on hand we are ideally placed to satisfy sudden surges in demand.
- A more sustainable and environmentally acceptable route to market with product manufactured close to the location of intended use generating fewer carbon emissions.
- Spares requests can be handled swiftly and are dispatched within days, from stock and at local UK delivery rates.

Metal Prep

Where it all starts... our team of highly skilled fabricators transform raw materials into the formed metal components that are used throughout all our play equipment.

Welding

Our own inhouse, experienced welding team use assembly jigs to transform the individual metal components into a fully welded handmade assembly.

Surface Treatment

Having a highly durable finish on all our products ensures that our play equipment is going to be durable for any location.

Galvanising, anodising and powder coating provides the environmental protection covered by our extensive warranties as well as bringing some colour to the equipment.

For expert advice call us on **01977 653200**

Router

Continual investment in new machinery ensures that we are always at the forefront of technology. Our routers transform sheet HPL (High Pressure Laminate Panels) into colourful and playful panelling used throughout our product ranges.

Impact resistant, graffiti-friendly and UV stable HPL is the perfect material to withstand the rigours of any play area.

Rope Making

Using hard wearing polypropylene steel core ropes ensures that our scramble and climbing ropes are vandal resistant and highly durable. They are assembled by hand specifically for each piece of equipment.

Assembly

The end of the manufacturing process and where the metalwork, panelling, ropes and numerous fixings all come together.

Our Assembly Team have gained years of experience assembling the wide array of products available within this catalogue and are proud to be part of Made In Britain.

Quality

As a UK manufacturer our responsibility to quality and the environment is embedded into all aspects of the business. All our manufactured play equipment has been independently tested and certified as proof of compliance to the European Playground Safety Standard EN 1176.

The quality of all our locally sourced materials is continually monitored through our ISO 9001 certified Quality Assurance Procedures.

Delivery

Just a short trip from our site to yours. Having longstanding contracts with reputable delivery companies, we aim to get your order to you when you need it...wherever you are.

Spares

One of the benefits of local manufacturing is the availability of spares, we understand the importance of getting them quickly.

Any requests can be handled swiftly and usually are taken out of stock and dispatched at local rates within days.

You can buy online at [sutcliffeplaydirect.co.uk](https://www.sutcliffeplaydirect.co.uk)

Sustainability

Sutcliffe Play's commitment to sustainable manufacturing is nothing new and has been a mainstream design consideration since we first started designing and manufacturing play equipment back in 1990.

Responsible manufacturing, a sustainable UK supply chain and the purposeful use of sustainable raw materials has always been embedded into our philosophy and will continue to be so. Through our continued efforts we strive to achieve our target of being carbon neutral by 2040.

Responsible Manufacturing

As part of the company's ISO 14001 Environmental Management System we are committed to operating our purpose-built manufacturing facility in West Yorkshire to be clean, safe, and energy efficient.

With our main supply marketplace being here in the UK our central location brings additional environmental benefits as greenhouse gas emissions generated through the transportation of finished goods is significantly reduced, every mile matters!

Sustainable Supply

Working with our supply partners we maintain a sustainable supply chain of raw materials from various UK sources and manage the distribution of our finished goods with the aim of minimising the environmental and social impact of our operations.

Promoting our own environmental and social practices with our partners allow the supply chain to operate in a way that protects natural resources, reduces waste and pollution, and promotes the continual progression of our suppliers towards carbon neutrality.

www.sutcliffeplay.co.uk

Earth friendly materials

Using recycled and recyclable materials within our design and manufacturing processes dramatically helps us to become more environmentally friendly without sacrificing the quality of our play equipment. Metal, be that our mild steel or aluminium, panelling constructed from HPL and our plastic covers and detailing are all highly recycled and recyclable and can be used repeatedly without losing any of their beneficial material properties.

Manufacturing this way, using these recycled materials, is an easy way for us to boost our environmental performance and deliver a sustainable product direct to our customers.

Rubber and timber are two of the world's most widely used natural materials and both are used within our manufacturing facility, rubber being the main raw material used to mould our swing seats and timber the construction material for our Orchard and Treetops timber ranges, are all supplied from sustainable sources.

Timber being FSC and Rubber extracted from Global Platform for Sustainable Natural Rubber (GPSNR) approved farms.

Corporate awareness

Our Environmental Policy recognises the need to protect the environment, manage and continually improve upon the positive and negative effects which our activities, products and services have on our environment.

To achieve this, whilst maintaining an economically viable business we will:

- Implement measures to prevent pollution
- Promote waste minimisation by preventing, recycling or finding other uses for waste and by-products
- Divert waste from landfill by using Energy from Waste facilities
- Reduce emissions to a minimum by managing effective manufacturing operations
- Conserve natural resources by promoting the efficient use of resources and energy throughout the company's operations

To continually raise awareness, we will:

- Educate staff so that they can carry out their activities in an environmentally responsible manner
- Develop mutually beneficial relationships with suppliers and sub-contractors so that we all recognise our environmental responsibilities
- Set SMART targets in accordance with company strategy to improve our environmental performance

To fulfil our compliance obligations, we will:

- Meet or improve upon relevant legislative, regulatory, customer and stakeholder requirements
- Consider environmental issues in the decision-making process
- Monitor and review our environmental performance

Our carbon footprint has been evaluated and monitored bi-annually using the **Carbon Trust Footprint Calculator** (www.carbontrust.com). The Carbon Footprint Calculator is specifically designed to help UK based SMEs measure their corporate emission footprint following GHG Protocol Guidance.

Sutcliffe Play is an accredited member of Made In Britain Green Growth Programme.

For expert advice call us on **01977 653200**

Where we are now...

We are committed to reducing the impact that our business has on the environment through assessing and improving our environmental performance.

With a 35% reduction of carbon emissions achieved over the past 3 years we strive to be carbon neutral by 2040.

In 2017 the company started to switch its **fleet of vehicles to either fully electric or at minimum PHEV**, significantly reducing the carbon generated from the essential need to mobilise our customer-facing staff.

We have reduced our gas consumption by
30%

By making changes after a review undertaken in early 2022, of the heating and appliances used to support the manufacturing and offices buildings.

Emissions Reduction

Reduction in the emission of carbon dioxide from the manufacturing process incorporates both small local level initiatives as well as the larger more strategic improvements.

Our electricity is from a

96% renewable source that is certified by an EU Guarantee of Origin to prove the power comes from a renewable source.

Under the 2005 Fuel Mix Disclosure Regulations our energy provider confirms that 96.3% of the electricity procured is from sources which include Wind Turbines, Solar Panels and Hydro Power Schemes.

The management of local resources such as switching off lights, screens, machinery and heating when not in use and using smart timer switches to remove human intervention, prevent unnecessary usage.

www.sutcliffeplay.co.uk

Reducing emissions

The emission reductions made at our manufacturing site, the ethos of local raw material supply and with our mobilised staff being carbon efficient, are all a reflection in the low kgCO₂e rating of the products that we produce.

Eco-friendly delivery

Consideration should also be given to the environmental impact of transporting the goods beyond the manufacturing site. Road and sea haulage are one of the largest emitters of kgCO₂e.

Governments throughout Europe, including our own, are now focusing on reducing this large scale emitter of harmful GHG attributed to damaging both the environment and the direct health of the population.

To our customers, Sutcliffe Play brings the added environmental benefit as all our haulage transportation is Euro 6 compliant and travelling just a short distance from the site of manufacture to your door.

Carbon footprint

Our carbon footprint has been evaluated and monitored bi-annually using the Carbon Trust Footprint Calculator (www.carbontrust.com).

The Carbon Footprint Calculator is specifically designed to help UK based SMEs measure their corporate emission footprint following GHG Protocol Guidance, including direct emissions from fuel and processes (Scope 1 emissions) and those emissions from purchased electricity (or Scope 2 emissions) for the assets they operate.
