Dundee Partnership **Community Regeneration Fund**

Grant Application (Ferry / West End) **2023/24**

Applicant Information	
Name of Applicant Group	Scottish Fire & Rescue Service
Activity Title	Community Safety Training / Fire Safety Experience
Grant Requested (£)	£4500.00

The Local Community Planning Partnerships (LCPPs) in the Ferry and West End will examine their existing Local Community Plans to identify outstanding actions with a direct relationship to community regeneration and consider allocation of some or all of their available funding to commissioning works that would allow achievement of these agreed priorities. Each area has an allocation for 2023/24 with which to commission activities, and so activities that attract external funding may be prioritised.

This application should address needs in one of the below Wards within which the Dundee Partnership supports activity. If an activity covers more than one Ward then an application is required for each ward, but it is essential that each application can stand on its own if agreed and that the application is not for a city-wide activity, but a local activity that is to take place in more than one Ward.

DUNDEE PARTNERSHIP FUND CRF GRANT APPLICATION

Who is the grant for? (Name of Applicant Group / Department)	Scottish Fire & Rescue Service Service Delivery Dept		
Did you receive a Dundee Partnership grant during 2022-23? (If yes, list all grants below)			NO
Title of project funded	Amount granted	When	Was it fully spent?

Please give a description of what you want this grant for - (please limit your answer to 500 words or less)

The grant would be utilised to fund the purchase of Fire Behaviour Burning Trays & Demonstration Units to facilitate training of 3rd party groups in The Ferry Ward area, such as Boys Brigade, Guides, Womens Guild, Foodbank Support Workers etc.

(Training would be undertaken in other neighbouring areas of Dundee also to address needs around “closing the gap” and where training was beneficial in terms of equal opportunity and to mitigate the risks of being involved in fire due to deprivation).

The grant would allow the purchase of the units and ensure that an appropriate GAS SAFE servicing plan was in place.

The Scottish Fire & Rescue Service want to ensure that embracing Community Fire Safety is an integral part of building community partnership, lifelong learning, building resilience and making our communities safer.

Working with our partners is at the heart of how we work, it is a fundamental part of making a positive difference to people’s lives and keeping communities safe. We have developed strong local partnerships through the LCPP, bringing public, third and private sector partners together with communities to deliver shared outcomes that really matter to people.

These partnerships are an important way of making sure that the Scottish Fire & Rescue Service is accessible to all our communities and that fire safety education is delivered throughout life from an early age, whether that be school, Boys Brigade, Scouts, Guiding, Women’s Guild, Men’s Shed etc.

Whilst great strides have been made to enhance community fire safety whereby, we reduce injury / death and business losses from fire, there is sadly still a great deal of evidence within our LCPP that there is work to do.

DUNDEE PARTNERSHIP FUND CRF GRANT APPLICATION

The Scottish Fire & Rescue Service are very conscious that we are in a period of severe austerity and that many people are suffering the effects of severely restrained income streams whereby the risks of fire within the home may increase. We wish to ensure that we have as many tools as possible at our disposal to counter this risk.

Which City Plan / Local Community Plan Outcome(s) will it address?

1. Build Resilient Empowered Communities.
2. Improve life chances for children and families.
3. Respond to the cost-of-living crisis.
4. Local opportunities to be involved in learning, social and physical activities which promote wellbeing.
5. Local support for people experiencing poor mental health or who are affected by substance or alcohol use.
6. Opportunities to get involved in community life in The Ferry
7. Partnership approach to addressing issues of community safety.
8. Support for people in recovery and their families.

How many people will benefit from this project?

>1000

Will any specific groups benefit from this project? (male, female, age range or protected characteristic)

The delivery of fire safety education is for all groups within our community.

Please say why the project is needed (please limit your answer to 500 words or less)

Statistical evidence defines that life-changing losses from fire increase during periods of austerity and poverty.

The Ferry Ward has a rich array of culture, diversity, business and opportunity which the Scottish Fire & Rescue Service are invested in working with our partners to maintain and enhance.

As listed within the Local Community Plan Outcomes however, we are aware of the huge pressures on services within our community, the increases in risk as a result of poverty / deprivation etc and seek to utilise empowerment and inclusion to assist provide the population with the tools to embrace and confront new challenges.

Fire Safety Education is at the forefront of this.

What local consultation has taken place regarding this application?

(Please attach evidence summarising the results of any consultation)

Balmossie Community Fire Station has always been an integral part of the Broughty Ferry Community. Countless pieces of evidence have been submitted to the Scrutiny Board of Dundee City Council which include:-

Home Fire Safety Visits.

Fire Safety Inspections for business premises.

Working with schools and community groups such as BB, Guides etc.

Delivering Young Firefighter Schemes.

Participating in national Safe Drive Stay Alive Schemes.

Duke Of Edinburgh Award delivery.

What evidence do you hold that the local community supports this application?

(For example, was it proposed by members of a particular group? Does it directly address need identified by community members?)

Local community groups regularly endorse the Community Fire Safety work that the Scottish Fire & Rescue Service carry out with their members.

Again, this is evidenced with submissions for Scrutiny to Dundee City Council and the Scottish Government.

How will the project / activity tackle deprivation or benefit those experiencing deprivation?

(Refer to Section 1 of the Guidance Notes)

Ensuring all of our community are exposed to fire safety reduces the risks of fire within the home.

Evidence suggests that persons afflicted by deprivation suffer a higher risk of having a fire and providing the education to live safely undoubtedly lowers said risk.

For Physical & Environmental Improvements (which must be Capital worth at least £6,000 in value) the following questions must be answered:

Have all relevant permissions been agreed? (please state what these are)

N/A

How will the planned project be maintained? (please state who will be responsible for this)

N/A

What is the expected 'life' of the improvement? (e.g. before it will require replacement)

N/A

Could a plaque indicating the Community Regeneration Fund as a source be added on location for this award? (If there would be additional costs for this, please indicate this in the budget section)

N/A
