Dundee Partnership **Community Regeneration Fund**

Grant Application **2025/26**

Applicant Information	
Name of Applicant Group	Caird View Nursery
Activity Title	Early Years
Grant Requested (£)	£1984.29

- The Youth Inclusion Fund is to provide financial assistance for community initiatives aimed at working with Children and Young People. Applications should be for an activity (or activities) focused on including children & young people in activities, diverting young people from an existing undesirable activity or preventing them joining in with such activity. This should reflect a need that children and young people have been consulted on.

- The Small Grants Fund is for other applications that contribute towards achievement of the Dundee City Plan / Local Community Plan, usually up to £5,000, but there may be lower local restrictions on the amount. Therefore, it is important to check with the relevant Community Worker as listed on page 8 for any local restrictions or other requirements.

This application should address needs in one of the below Wards within which the Dundee Partnership supports activity. If an activity covers more than one Ward then an application is required for each Forum, but it is essential that each application can stand on its own if agreed and that the application is not for a city-wide activity, but a local activity that is to take place in more than one Ward.

Card view Nursery is a standalone facility and as such we do not have access to Pupil Equity Funds. The funds would support us to replace and replenish play resources from the nursery to support the children’s learning and development.

Which City Plan / Local Community Plan Outcome(s) will it address?

The city plan by reducing inequalities for children living in an area of poverty and the Strathmartine local community plan by Improving health and wellbeing outcomes for children and young people who experience inequalities/

How many people will benefit from this project?	
Will any specific groups benefit from this project? (male, female, age range or protected characteristic)	
79 families. A mix of genders, age ranging 0-80 (grandparents). We have a diverse range of ethnicities.	

Please say why the project is needed (please limit your answer to 500 words or less)

Due to the cost-of-living crisis, the resources from procurement are increasing and our budget has stayed the same. This is causing a struggle for us to replenish our resources. The resources are vital to the children's learning and development. Our increasing numbers of ASN have meant children are using the garden as more of a regulation space where they can use physical regulation. As well as a higher need for sensory resources.

During COVID our nursery was used as a hub space for children of keyworker families across the community. This happened shortly after our nursery opened and we had fresh, new resources, which disappeared over the time due to rotation of children/nurseries/staff. Since then, it has been a struggle to recover and refresh our resources on a limited budget.

The nursery provides opportunities for family engagement. New resources would also impact not only the children, but the family of the children as they often come into the nursery with their children.

What local consultation has taken place regarding this application?

(Please attach evidence summarising the results of any consultation)

We have consulted with the children, families and staff members.

What evidence do you hold that the local community supports this application?

(For example, was it proposed by members of a particular group? Does it directly address need identified by community members?)

This supports the needs of the children within the setting as well as the linked families. We work alongside other agencies, who often use the nursery space. We have a speech and language therapist who regularly visits and uses the nursery space to support the children's language development. New resources would also support her in her job role.

How will the project / activity tackle deprivation or benefit those experiencing deprivation?

(Refer to Section 1 of the Guidance Notes)

Many of our children live in high deprivation zones which means they may not have access to the experiences we provide at nursery. New resources would

ensure we are supporting their development as well as providing them with new experiences. This would support us to close the attainment gap.

What other sources of funding have you secured / tried to secure for this project?

• **If none, please state why this is the case**

(Detail below, including applications that are pending or that have been turned down. We may ask for further evidence of an application for other funding)

Source of Funding (detail if this funding is for more than 1 year, if applicable)	£
None. New financial year started in April.	

What are the costs of your activity and how much money is required? Please give specific details (expand list / use an additional sheet if required) and provide all quotes (good practice for applications for over £5,000 is to provide three quotes to ensure value for money is received, and we will require to see these where relevant).
